

Another Exceptional Remodeling Experience

We dreamed of moving to the country, and knew exactly how we wanted our home to **feel**. The design team of Don and Bruce were able to transform that feeling to reality. Their unending commitment to **hearing** our thoughts and ideas resulted in a home that is exactly what we wanted! They recognized the potential of the site far better than we did, and our home blends naturally into the wooded setting with style and grace.

From the foundation to the final coat of paint, the construction team was meticulous. Don's skilled professionals cut no corners. We were impressed with the consistent superior quality of the work. The job supervisor communicated with us regularly, providing project updates and answering our questions. Every worker was extremely polite and respectful. We were very confident in their expertise.

Now that we are in our dream home, we appreciate even more Don Jason's commitment to quality. In addition, Don Jason Remodeling's warranty provides us with peace of mind and confidence. Having completed **two** projects with Don, we are extremely satisfied and recommend Don Jason Remodeling to anyone who is considering a remodeling project of their own.
